

Wraps Anything Tighter

The **NEW G Series** low-volume stretch wrapper from Lantech is a high-quality, high-performance, easy-to-use machine that makes safe to ship loads.

TIGHTER = SAFER

Your reputation rests on what you deliver to your customers. Make sure your pallet loads are safe to ship. The Patent Pending **G Force Film Delivery System** combined with easy to understand and use controls, gives you professional results on every load.

IT'S A LANTECH

No compromises! Legendary Lantech durability and performance built in to every G Series stretch wrapper, backed by a 3-year unlimited cycle warranty.

G FORCE FILM DELIVERY SYSTEM

Tension release let's you reduce tension so the film doesn't pull out when you start wrapping.

Turn tension knob clockwise to increase film tension and counter clockwise to reduce film tension.

WRAP CYCLE PAUSE

Stop the machine whenever you want, and start right where you left off, without resetting the machine.

Used for inserting labels, corner protection, etc.

BANDING MODE

Stops roll carriage at selected areas and applies selected number of film revolutions.

Used in cases where manual film manipulation is desired.
